PROFILE

Dedicated and results-driven IT professional. Proven expertise in developing and implementing innovative solutions using OutSystems low-code platform. With a solid background in project management and a keen eye for detail. Eager to contribute my skills and enthusiasm to drive efficiency and excellence in software development.

CERTIFICATIONS

- Associate OutSystems Developer
- Python with Visualization

SKILLS

- Project Management
- C++, Python, JavaScript
- SQL, MongoDB
- Git
- 3D Modelling

OUTSYSTEMS DEVELOPER| NEURAL BRIDGE AI (JANUARY 2023-PRESENT)

- Designed and implemented a comprehensive Hotel Management System using OutSystems, streamlining reservations, guest services, and billing processes.
- Developed a robust Vehicle Management System on the OutSystems platform, facilitating efficient tracking, maintenance scheduling, and reporting for a fleet of vehicles.
- Implemented features for inventory management, preventive maintenance alerts, and cost tracking, resulting in optimized fleet performance and reduced operational costs.

INTERNSHIP | BUSINESS WEB SOLUTIONS (FULL STACK DEVELOPMENT) (JULY 2022-SEPTEMBER 2022)

- Gained hands-on experience on multiple technologies: HTML, CSS, JavaScript, Bootstrap, TailwindCSS, JQuery, React.js, Python SQL, Django.
- Worked on projects and learned to develop applications.
- Developed a mini social media app with a user login and logout system, as well as the ability to make posts and follow other users.
- Improved the app with the addition of profile updates and image posts.

TRAINING | TRUBA (PYTHON WITH VISUALIZATION) (JULY 2021-SEPTEMBER 2021)

- Completed an intensive training program specializing in Python programming with a strong emphasis on data visualization.
- Gained hands-on experience in harnessing the power of Python for data analysis and the creation of compelling visual representations.
- Successfully applied these skills in real-world scenarios, working on diverse projects that involved the analysis and visualization of data.

EDUCATION HISTORY

BACHELOR OF ENGINEERING
(Computer Science)
(2019-2023)

Truba Institute of Engineering and Information Technology (Aff. RGPV)
• CGPA : 7.9

CLASS XII
(PCM & Computer Science)
(2018-2019)

People's Public School (CBSE)
• Percentage : 58.6

CLASS X
(2016-2017)

Holy Family Convent Sr. Sec. School (CBSE)
• CGPA : 7.6

PROJECTS

Vehicle Management System
(Outsystems(O11))
(Oct 2023-Present)

- Developed a robust Vehicle Management System on the OutSystems platform, facilitating efficient tracking, maintenance scheduling, and reporting for a fleet of vehicles.
- Implemented features for inventory management, preventive maintenance alerts, and cost tracking.

Job Portal App
(Python/Django)
(Feb 2023-May 2023)

- Developing an app for Job seekers to apply jobs at, which includes features such as User Authentication for Job Seekers, Employers and Admin, Filter option for Job Seekers, Employer's Dashboard to post Jobs.
- Implemented Python, Django, JavaScript, HTML, Tailwind CSS to build a scalable and efficient application.

Social Media App
(Python/Django)
(Sep 2022-Oct 2022)

- Developed Social Media App like Twitter where people can share their thoughts, which includes features such as User Authentication, Following other users, Detail view of User Profile, Image posts.
- Implemented Python, Django, JavaScript, HTML, Tailwind CSS to build a scalable and efficient application.
